Masdar and Emirates Water and Electricity Company (EWEC) have announced the launch of the world's first "round the clock" 24/7 clean energy gigascale project, ...

Discover how this initiative supports the Abu Dhabi Energy and Water Efficiency Strategy 2030 and promotes sustainable practices across vital sectors.

The Abu Dhabi Department of Energy (DoE) has introduced the Solar (Photovoltaic) Energy Self-Supply Policy, which will boost the uptake of distributed solar PV (DPV) and battery ...

Farms, ranches and rest houses in Abu Dhabi will now be allowed to generate their own electricity using solar power, under a new self-supply framework rolled out by the emirate's energy ...

The policy, which came into effect on February 5, 2026, allows residents and businesses to generate their own electricity using solar panels and battery energy storage systems.

The Abu Dhabi Department of Energy has introduced a policy designed to support deployment of solar systems for self-consumption, with the first phase of the policy targeting the...

The objectives of this Policy are to place end-consumers at the forefront of Abu Dhabi's energy transition by enabling complementary measures, such as customer self-supply through DPV and PV+BESS.

The policy gives customers across the UAE capital the option to continue utilizing energy from the grid or to adopt flexible energy solutions such as solar systems for self-consumption, either ...

Consumers will be able to generate significant savings by leveraging solar energy solutions, including photovoltaic panels and solar-powered water heaters, in addition to battery ...
