Explore how 5G base stations are built--from site planning and cabinet installation to power systems and cooling ...

The number of mobile base stations providing 5G services more than doubled last year -- from 3,000 sites in 2020 to over 6,500 sites in 2021. Based ...

In order to remedy this, a 5G infrastructure needs a higher number of base stations to make up for the short range coverage. This presents certain challenges: Site ...

This will generally consist of a before and after photomontage of the radio base station, fencing, landscaping and access (where applicable), and when requested, a Landscape and Visual...

3.6 The application site has been selected by the operators as this will provide the required level of 5G network coverage while properly meeting national town planning policy objectives for the shared use ...

Chinese-owned telecommunications masts will be replaced on ...

Foreword from the Secretary of State
Executive summary
Chapter 1 - Approach and scope
Chapter 2 - Ensuring good connectivity across rural and urban areas
Chapter 3 - Our 2030 ambition
Chapter 4 - Strengthening the investment environment
Chapter 5 - Realising the full benefits of 5G and advanced wireless connectivity
Chapter 6 - Driving adoption in key economic sectors
Chapter 7 - Shaping the development of 6G
The Prime Minister has set out his 5 priorities for this government - to build a better, more secure, mor...
We can only deliver on that priority with world-class digital infrastructure. Advanced wireless connectivity will be the foundation on which we build industries, jobs, skills and services for the future, and this strategy sets out our plan to harness its potential for our economy and our society.
