The invention relates to the technical field of communication base station ventilation systems, in particular to an intelligent ventilation system based on a 5G communication wireless ...

This paper proposes a novel ventilation cooling system of communication base station (CBS), which combines with the chimney ventilation and the air conditioner cooling.

The base station energy-saving intelligent ventilation system introduces clean outdoor cold air according to the temperature difference between the indoor and outdoor environmental ...

The invention relates to the technical field of communication base station ventilation systems, in particular to an intelligent ventilation system based on a 5G communication...

Green network aims to promote the sustainable development of communication systems, and base station (BS) and cells sleeping has been proven effective in reducing the ...

Energy consumption, intelligent thermal management, and the cooling down of electronic devices in last-generation mobile telecommunication ...

The coverage area in which service is provided is divided into a mosaic of small geographical areas called "cells", each served by a separate low power multichannel and antenna at a base station.

In this survey, we first present facts and figures that highlight the importance of green mobile networking and then review existing green cellular networking research with particular focus ...

In applying ESG principles to BTS equipment, XL Axiata has modernised by implementing Green BTS which includes Intelligent Ventilation Cooling System (IVS), the use of DC ...

Communication Green Base Station Intelligent Ventilation Settings

Dec 22, 2023 Abstract This document stipulates the terms and definitions of green and low-carbon services for communication base stations, the scope of classification for green and low ?
