Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal ...

Deye outdoor cabinet is an energy storage device designed for outdoor environments. It has an IP65 high protection level and corrosion-resistant materials, and is suitable for harsh conditions such as ...

Equipment Cabinets: Standardized and customized cabinets providing a safe and stable operating environment for electronic devices and automation control systems, among others.

Shop durable IP65 and NEMA 4 rated outdoor solar battery storage cabinets--engineered for telecom, energy, and off-grid applications. Waterproof, ...

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar generation, lithium battery storage, inverter, and EMS in a single cabinet.

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...

The outdoor photovoltaic energy cabinet can provide reliable housing for network servers, edge computers, professional equipment, monitoring systems, photovoltaic, and battery systems.

This outdoor cabinet for energy storage system (ESS) applications is engineered to house batteries, inverters, and controllers with superior protection and durability.

Corrosion-resistant outdoor photovoltaic energy storage cabinet for highways

Easy to Transport and Install: The product shell is made of aluminum alloy, lightweight and easy to handle manually; prefabricated at the factory, and the cabinet can be lifted as a whole;
