Europe's existing power grid typically is more than 130 years old and unfit for this purpose. With this in mind, the supply of electricity to industry must be transformed. This system concept ...

Our cabinets are designed to provide reliable, efficient, and high-performance power conversion for a variety of industries, including ...

Custom design and prototyping of DC/DC converters, bidirectional power modules, and solid-state transformers (SSTs). Deep ...

DC Cabinet is an advanced liquid-cooled outdoor energy storage cabinet designed to support 200+ kW applications with rapid deployment and a ...

DKC is a European leader, and offers a comprehensive range of cable tray systems and energy protection, transport and distribution solutions for civil and industrial infrastructures.

Considering that the arrangement of storage significantly influences the performance of distribution networks, there is an imperative need for research into the optimal configuration ...

We at Fraunhofer IISB are happy to support you with power electronics, protection technology, grid analysis and stability for DC applications.

The system consists of two components: The actual battery cabinet and an energy distribution cabinet that integrates it into the ...

MaxiCharger DC HiPower is perfect for highway rest-stops. Featuring a nondescript power cabinet that holds the power modules and two ...

DC power distribution and energy storage cabinets for German highways

Explore how DC Microgrids reduce conversion losses, stabilize energy flows and connect generation, storage and machinery seamlessly. In a ...
