On March 25, CCTV-13's Morning News reported on the commencement of CECEP Solar's 500,000-kilowatt integrated photovoltaic (PV) desert control project in Dalad Banner, Inner Mongolia.

In 2023, the project installed 2.18 million solar panels and employed over 3,000 workers, most of whom were local farmers earning between 300 (about 42 U.S. dollars) and 500 yuan per day.

Consisting of row upon row of blue solar panels, a photovoltaic (PV) base with an installed capacity of 1 million kilowatts was put into operation in the Kubuqi Desert, Dalad Banner, Ordos city, ...

An aerial drone photo taken on Sept. 10, 2025 shows the Dalad Banner photovoltaic base in the Kubuqi Desert, north China's Inner Mongolia Autonomous Region. In the Kubuqi Desert, ...

In the hinterland of the Kubuqi Desert in Dalat Banner, Ordos City, Inner Mongolia Autonomous Region, a giant horse picture is embedded here. This is a giant photovoltaic power station built by State ...

Now, Dalat Banner sand control and wind power photovoltaic integration project construction is in full swing, through the simultaneous implementation of photovoltaic sand control and supporting ...

An ocean of blue solar panels ripples across the ochre dunes of Inner Mongolia's Kubuqi desert, a glittering example of China's almost inconceivably mammoth energy transition.

The sun sets over solar panels at the Dalat Banner Photovoltaic Station. Views of the shimmering solar cells have gone viral online, as Kubuqi has become a popular domestic holiday destination.

On August 31, CECEP Solar's 500 MW photovoltaic project integrating desertification control in Dalad Banner was successfully connected to the grid, becoming the first project in the Inner Mongolia ...
