The Philippines government has announced that large-scale renewable energy installations will have to integrate energy storage.

THE Department of Energy (DoE) said it will require developers with proposed renewable energy (RE) plants generating at least 10 megawatts (MW) to pair them with energy storage systems ...

The storage component must represent at least 20% of the plant's total installed capacity. The policy marks a significant shift in how the Philippines manages the inherent intermittency of solar ...

The Department of Energy (DOE) has mandated that developers of large-scale renewable power plants integrate energy storage systems into their facilities, a move intended to stabilize the ...

The Department of Energy (DOE) has issued Department Circular No. DC2026-02-0008, which requires variable renewable energy (VRE) power plants to be integrated with energy storage ...

Developers building intermittent renewable energy plants in the Philippines with 10 MW or greater capacity will need to install energy storage systems (ESS) alongside under new rules ...

The Department of Energy (DOE) has introduced a new rule that makes energy storage compulsory for large renewable energy projects in the Philippines. The move is aimed at improving ...

THE Department of Energy (DOE) has added a new measure to support higher renewable energy generation. Department Circular (DC) 2026-02-0008 calls for the integration of energy ...

Department of Energy (DOE) order sets out new rules for mandatory energy storage, including a minimum capacity of at least 20% of the generating plant's installed capacity. DOE also ...
