---

Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere ...

Diotech O&#220; and Transcom AS will commence construction in February 2026 of a 100 MW / 200 MWh battery energy storage system (BESS) facility in Tsirguliina, Valga County.

Estonia has delivered its largest heat storage facility, begun construction on its largest solar-plus-storage hybrid project, and is preparing to break ground on an 800 MWh battery park in ...

NIB has signed a EUR 27.7 million 10-year loan agreement with Baltic Storage Platform O&#220; to finance the construction of two battery energy storage projects, Hertz 1 and Hertz 2, in ...

Hertz 1, with its significant storage capacity of 200 MWh, is the first of two strategic projects (Hertz 1 and Hertz 2 are 100MW/200MWh each) designed to stabilize the regional power ...

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.

The successful financing and rapid construction progress of these projects demonstrate the growing maturity of the energy storage sector in the Baltic region and set a precedent for future ...

Yuso, a battery energy storage system optimizer based in Waregem, Belgium, has announced the start of operations of the Hertz 1 BESS facility in Kiisa, Estonia.

As Europe races toward 2030 renewable targets, the Tallinn Power Storage Project has become a litmus test for grid-scale battery viability in northern climates.
