The Nongong Substation Energy Storage System is a 36,000kW lithium-ion battery energy storage project located in Dalsung, Daegu, South Korea. The rated storage capacity of the project is 9,000kWh.

Discover how energy storage cabinets are transforming Sierra Leone's industrial and commercial sectors. From stabilizing power grids to enabling renewable energy adoption, this guide explores the ...

Extensive system planning studies identified six project regions where electric system upgrades are needed to support the interconnection of DER technologies such as solar panels, wind turbines, ...

Our certified specialists provide support for outdoor communication cabinets, power equipment enclosures, and battery storage cabinets across Africa. Subscribe for latest insights on outdoor ...

With 72% of its port capacity dedicated to renewable tech shipments in 2023, this West African hub now supplies battery storage systems (BESS) to 18 countries. Let's explore how this transformation aligns ...

JA Solar has signed a 1.25GW module procurement agreement with the China Energy Engineering Corporation (CEEC) for Africa's largest photovoltaic (PV) storage project, to be located in Egypt. [pdf]

In South Africa, battery storage is increasingly seen as a key pillar to help provide grid stability and integrate variable renewables given its ageing coal-fired power fleet and grid.

The project employs molten salt thermal energy storage technology that utilizes the temperature differential during the salt's heating and cooling processes to store energy.

Work on a solar energy and battery storage project in Senegal, touted to be the biggest in West Africa once it goes live, is set to begin next month after an EPC (Engineering, Procurement ...

Freetown and EK cooperate on energy storage project

The Freetown Waste to Energy project will have the ability to process approximately 365,000 tonnes of municipal solid waste annually, producing ...
