Our solar roof panels are a 2-in-1 building-integrated photovoltaic (BIPV) solution for your roof. The high-tech monocrystalline solar cells provide stellar performance even in low-light conditions.

The installation of Tuvalu's inaugural Floating Solar Photovoltaic (FSPV) system has been successfully completed, with this cutting-edge system ...

Imagine a solar solution that works like a Swiss Army knife for energy needs - that's the Funafoti system. Designed for both sunny tropical islands and urban rooftops, this photovoltaic marvel ...

Infratec has installed 196 solar panels on the roof of the new Tuvalu Fisheries Department HQ on the main atoll of Funafuti, giving the building 73.5kW of its own renewable energy generation, plus ...

The Funafuti solar and space creation project will not only supply electricity to over 800 homes by yearly generating 783,000 kWh, but will also save 206,000 litres of diesel each year - bringing about a ...

This research investigates the design and economic evaluation of a photovoltaic (PV) energy system for Funafuti, with the aim of reducing dependence on fossil fuels and promoting renewable energy ...

As island communities like Funafoti seek energy independence, solar panel technology emerges as the ultimate solution. This article explores how photovoltaic systems address unique energy challenges ...
