DTEK partnered with American energy firm Fluence Energy Inc. -- which provided 698 Gridstack batteries to the project -- to build and connect six new battery storage systems to the grid ...

At the heart of this movement stands a partnership between DTEK, the country's largest private power producer, and Fluence Energy, a global leader in battery systems.

According to DTEK, the project can store 400 megawatt-hours of electricity -- enough to power 600,000 Ukrainian homes for two hours. DTEK ...

Who is funding the energy storage project in Ukraine? Ukraine's second most profitable bank, state-owned Oschadbank, state-owned Ukrgasbank, and PUMB will provide the funding for the project, ...

As part of the project, six facilities ranging from 20 to 50 MW were connected across Kyiv and Dnipropetrovsk regions. Construction took place from March to August 2025 and cost DTEK ...

Our 1 GW project combines gas, solar, and battery storage to secure Kyiv's grid, cut emissions, and support critical services. Explore investment in this high-impact initiative.

The complex consists of six facilities constructed in a record time of just one year. Investments in the project totaled 125 million euros," the report states. It is noted that the complex can store 400 MWh of ...

As reported, DTEK and Fluence announced their intention to implement a project for modern energy storage systems (ESS, energy storage, energy storage facilities) in Ukraine with a ...

Ukraine's energy giant DTEK has launched the country's largest battery storage project - a 200 megawatt (MW) system to stabilize the grid. The project, built in ...

## How many companies are involved in the Kyiv energy storage project

Six new battery storage systems of varying capacities - from 20 to 50 MW each - have been connected by DTEK to the power grid in the Kyiv and Dnipropetrovsk regions. Collectively, they ...
