The Solar Energy Corporation of India (SECI) partners with Andhra Pradesh to develop a groundbreaking 1200 MWh battery energy storage system and a 50 MW hybrid solar power project, ...

Clean Energy Storage System and Managing Director, Epsilon Group India is at a crucial juncture in its energy transition journey, with ambitious targets of achieving 500 GW of non-fossil energy capacity ...

"This project marks a major first for us--our first hybrid Solar + Storage project in India. By integrating long-duration storage with large-scale ...

ENGIE aims to operate 7 GW of renewable and storage capacities in India by 2030, with 75% of new capacity solar-linked, and every future project designed with storage integration.

Feedback Visitor Summary Website Policies Contact Us Help Web Information Manager Terms and Conditions Content Owned by MINISTRY OF NEW AND RENEWABLE ENERGY ...

India's storage story is quietly entering its next phase. NTPC Renewable Energy is planning a 100 MWh vanadium redox flow battery at the Khavda hybrid park. On the surface, it is another project ...

ENGIE has been awarded its first hybrid project in India, combining 200 MW of solar PV with 100 MW / 600 MWh of battery storage. This project will enable the storage and supply of up to 6 ...

In an increasingly unpredictable global energy landscape, enabling firm, clean power isn't just a technical breakthrough, it's a strategic imperative. By integrating long-duration storage with ...

Between 2022 and May 2025, India auctioned approximately 12.8GWh of battery energy storage system (BESS) capacity for both hybrid and ...
