A 12kW inverter is a power conversion device that transforms 12,000 watts of DC electricity from solar panels or batteries into usable AC power for your home or business.

EG4 12000XP Off-Grid Inverter: 48V split-phase, 12kW power with dual MPPTs and remote monitoring for reliable off-grid energy.

Our hybrid inverters bridge solar input, energy storage, and local grid or generator power in containerized environments. With advanced MPPT tracking and intelligent switching, they ensure ...

In addition to solar inverters, Growatt also offers a range of energy storage solutions, including lithium-ion batteries and hybrid inverters. These products ...

Featuring high quality components like the robust EG4 12000XP inverter, efficient Hyperion solar panels, and your choice of batteries, this kit includes everything ...

Spanning from 4KW to 12KW, this series stands out with its robust Dual MPPT technology (on 6.2KW+ models) and High PV Input Voltage (500V), enabling ...

This 12kW pure sine wave Hybrid all-in-one, off grid, 48V DC input, 120V/240VAC output inverter is a combination of 120A MPPT solar charge controller, low frequency inverter and 83A AC transfer switch.

The inverter includes an independent generator port that can double as a second load output, making it easy to manage critical and non-critical loads. Built-in PV Rapid Shutdown (RSD) protection ensures ...

The EG4 12kPV Hybrid Inverter is a powerful all-in-one hybrid solar inverter designed to provide seamless energy management for both off-grid and grid-tied applications.
