We are proud to offer a functional energy storage solution to a real-world problem that fulfills growing market demand and contributes to a zero-carbon future.

ket demands. It deeply integrates advanced battery management, intelligent temperature control systems, and safety protection technologies, providing high- efficiency and highly reliable power ...

scalable, fireproof and anti-corrosion capabilities, battery system can meet project requirements of large scale and is suitable for various environmental tions, making it an ideal solution for grid ancillary ...

To accommodate different climates, we provide professional recommendations based on customer usage scenarios and requirements. This ensures that ...

SWA ENERGY outdoor cabinets are engineered for harsh environments and long-term outdoor operation. With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they ...

Intelligent liquid cooled technology prolongs battery life Modular design supports parallel connection and system expansion IP54 outdoor cabinet and optional C5 anti-corrosion

The Battery Cabinet is an energy storage battery system that integrates the latest liquid-cooling technology solutions, featuring easy installation and easy deployment, to meet your various ...

TECHNICAL SPECIFICATIONS System Specifications Rated Energy Capacity: 100 kWh Inverter Power Rating: 50 kW Battery Cell Type: EVE LFP 3.2 V / 314 Ah Cycle Life: \geq 8000 cycles System ...

Features: A fire extinguisher can be installed inside the battery, which is safer Precise current detection; Provide precise data for SOC estimation, meanwhile protect the battery from over current to avoid ...

Korean Energy Storage Battery Cabinet Anti-corrosion Warranty

Customizable layout supports various battery types such as LiFePO₄, NMC, and lead-acid, with flexible space design for modular or full-pack configurations. High protection ratings including IP55, IP65, ...
