Avi Technologies is a company dedicated for electrical engineering related services. Our main specialities are solar PV Systems, uninterruptible power supplies and other renewable energy services.

Currently, two sub-projects are being procured - (i) 15 MWp ground mounted solar PV project, and (ii) 10 MWp floating solar PV project. The tender process is carried out through the Ministry of Finance ...

High-efficiency monocrystalline and polycrystalline solar panels. Reliable inverters for residential and commercial use. Energy storage solutions to ensure power availability. Desde Maldives is a leading ...

The typical products are PV inverter, storage inverter, lithium battery pack and EV charger that are widely applied to household, industrial and commercial new ...

Navigating factory site selection in the Maldives? Our guide covers land scarcity, climate resilience, and strategic locations like Hulhumalé for your ...

With over 1,200 islands and 99% sea coverage, the Maldives faces unique energy challenges. Outdoor inverters have become crucial for solar projects in this tropical paradise, where 98% of diesel imports ...

We have researched clean, feasible energy options and have come up with a portfolio of optimum energy solutions for the Maldives. We believe that a developed Maldives has to be a fossil fuel free ...

Major PV inverter manufacturer Sungrow has installed a hybrid solar-diesel-storage system for five islands in the Maldives, consisting of 2.7MWp of solar and 700kW/33kWh of energy storage.

We are a Solar Inverter supplier serving the Maldives, mainly engaged in the sale, quotation, and technical support services of various Solar Inverter products in the Maldives region.

Every product leaving our factory carries TUV, TCT, CE, and UL certifications - meeting both EU and US

Maldives Large PV Inverter Factory

stringent standards. Our quality control system ...
