While DOE has made significant progress in supporting microgrid deployments, there remain research gaps for both remote microgrid, and microgrids for critical infrastructure, which are being addressed ...

This report presents a detailed model for small reactors (SRs) in microgrids, identifying cost and operational data sets for various SR technologies suitable for different microgrid applications. ...

This report describes detailed lessons learned, from up-front planning guidance to actionable interconnection recommendations. Based on the experiences with these seven projects, the ...

National Committee DKE 353.0.401B wrote a report about bidirectional charging Use Cases.

This report features 26 microgrid case studies from California, North America, and other countries that make innovative business cases and rely on government support for less than 50 percent of project ...

This report analyzes the microgrid market landscape across 21 states and territories, providing insights into regulatory frameworks, incentive programs, commercial opportunities, and strategic approaches ...

Under the terms of this CRADA, ORNL has worked with Open Energy Solutions (OES) to advance the transition of ORNL's existing open-source microgrid controller into a platform geared toward ...

This report captures and shares experiences and lessons from the Miramar assessment, conceptual design, solicitation, engineering design, and construction process as well as from other ...

This report provides a baseline to evaluate IRES project-specific needs and also attempts to inform general industry efforts for development of C& S to support the adoption and use of microgrid and ...

This project will provide insight, transparency, and standardization in the reporting of microgrid costs and identify market segment differences for future cost reductions across microgrid ...
