Standardizing the battery energy storage system (BESS) is not only a necessary step in terms of technology, but also has strategic significance in ...

This paper deals with present practice for lightning protection in wind turbines in Vietnam, causes of lightning-induced damage and challenges in long ...

ThyAn Engineering Company is providing full-service company specializing in customized design & engineering solutions for surge protection, grounding and lightning protection.

Designed to protect sensitive battery modules, inverters, and control systems from harsh weather conditions, these cabinets enable reliable energy storage solutions for industries ranging from solar ...

We offer indoor and outdoor solutions based on different climatic conditions, ensuring the durability and reliability of the enclosures. With an integrated ...

This work presents a framework to assess the effectiveness of wind turbine lightning protection systems at the wind farm design phase. Performing the analysis at this early stage reduces lightning-induced ...

AZE's heavy duty outdoor battery enclosures and Lithium battery storage system are available in NEMA 3R, or 4X configurations. These outdoor battery ...

We design and install robust lightning protection systems that are precisely tailored to the requirements of renewable power generation facilities.

Reported lightning incidents to three major wind farms in Vietnam are summarized. Possible causes of failure are discussed, and an EMTP simulation for each incident was performed accordingly.
