PASH Global and ERIH Holdings have formed a joint venture to develop utility-scale solar and battery storage projects in Paraguay.

The proposed project will combine wind, solar, battery energy storage and green hydrogen to help local industry decarbonise. It includes an option to expand the connection to 1,200MW. [pdf]

Image: Harmony Energy. Alex Thornton, operations director at Harmony Energy, gives us a deep dive into Pillswood, the biggest battery storage project in Europe, including the bold decision to be an ...

As Asuncion positions itself as a renewable energy hub, battery storage plants will play an increasingly vital role in ensuring reliable, sustainable power for Paraguay's growing economy.

This article explores its technical framework, regional energy trends, and how industrial-scale storage solutions are reshaping Latin America's manufacturing landscape.

This article explores the city's operational and planned storage facilities, their impact on Paraguay's energy grid, and how companies like EK SOLAR contribute to this green transition.

In this article, we will explore how VPPs are transforming Paraguay's energy sector, focusing on the unique regional challenges and opportunities for integrating residential battery storage.

Summary: Paraguay's Cerro Port is emerging as a key player in lithium battery production, offering innovative solutions for renewable energy integration and industrial applications.

This article explores the current costs of energy storage batteries in Paraguay, their applications across industries, and how businesses can optimize investments.

Paraguay energy storage battery applications

A joint venture (JV) formed by investors PASH Global and ERIH Holdings reportedly plans to develop utility-scale solar power facilities and battery energy storage system projects in Paraguay.
