Hebei Hekang Metal Products Co., Ltd. is a domestic manufacturing enterprise specializing in the production and wholesale of earthquake resistant brackets, photovoltaic brackets, punched C ...

In order to achieve the effective use of resources and the maximum conversion rate of photovoltaic energy, this project designs a fixed adjustable photovoltaic bracket ...

The company has strong technical force, advanced production equipment, excellent service team and perfect management mechanism. In line with the business ...

N-Grip is a seismic-resistant metal bracket that "protects people and equipment" from an earthquake with a seismic intensity of class 7. By installing it at the foot ...

We are a physical factory specializing in the production of photovoltaic brackets, earthquake-resistant brackets, cable brackets, and punched C-shaped steel...

Our Little Firefighter Seismic Stabilizer Brackets are designed to stabilize both horizontal and vertical installations and piping to prevent false actuations in incidents outside of your control, ...

Durable Construction: This Strut Channel Support Solar Panel Bracket features a sturdy steel construction, ensuring a long-lasting and reliable mounting solution for your solar panel system.

By far the best way to accomplish this is a gravel pad, for drainage and support, then a decent earthquake resistant bracing system (ERBS). Once ...

The series of Hangzhou Roll Forming Technology's solar PV support forming machines can produce double-in-roll c-shaped steel photovoltaic brackets with consistently high quality at a stable speed.

Photovoltaic earthquake-resistant bracket equipment model

An earthquake can easily damage or destroy non-seismic racks and equipment when they move back-and-forth with the building, causing violent vibrations. Equipment racks are susceptible to damage ...
