---

The Pretoria Energy Storage New Energy Base isn't just another infrastructure project - it's basically our best shot at keeping the lights on while hitting those 2030 climate targets.

Energy storage systems (ESSs) can help make the most of the opportunities and mitigate the potential challenges. Hence, the installed capacity of ESSs is rapidly increasing, both in front-of ...

This project aims to decommission one of South Africa's oldest coal-fired power plants and replace it with 220 MW solar PV and wind power, as well as 150 MW battery storage. The funding comprises ...

Summary: This article explores Pretoria's booming energy storage sector, analyzing its applications across renewable energy integration, industrial solutions, and residential use.

The BESS project serves as a direct response to meet one of the urgent needs to address South Africa's long-running electricity crisis by adding ...

The Project will be implemented at approximately 17 sites, located within or adjacent to existing distribution substations of Eskom, across four provinces of ...

Explore our comprehensive photovoltaic storage and BESS solutions including photovoltaic energy storage systems, BESS solutions, mobile power containers, EMS management systems, commercial ...

The Department has launched the third bid round under the Battery Energy Storage Independent Power Producers Procurement Programme (BESIPPPP), calling for 616 MW of new ...

In May 2025, South African independent power producer (IPP) Mulilo emerged as the preferred bidder across four of the sites: the 123 MW Retreat ...

# Pretoria Behind-the-User Energy Storage Project

Summary: Pretoria is rapidly emerging as a hub for innovative energy storage solutions. This article explores completed and ongoing projects, their impact on renewable energy integration, and how ...
