Oil prices are rising due to heightened tensions between Israel and Iran, warnings from President Trump, and reports of oil tanker fires, despite previous dips after initial reactions to missile ...

Oilprice offers real-time oil prices for over 150 global crude blends and indexes, with live charts, comparisons, and smart analytical tools used worldwide.

Aluminum prices are climbing on the back of Chinese production caps, supply disruptions, and surging demand from EVs, defense, and infrastructure sectors.

Oil prices fell due to concerns about President Trump's tariffs and potential global recession, with West Texas Intermediate crude briefly dipping below \$60 per barrel.

If the U.S. enforces strict sanctions on Iran and Russia, and tariffs disrupt North American supply chains, oil prices could easily breach the \$80 mark again.

Crude oil prices & gas price charts. Oil price charts for Brent Crude, WTI & oil futures. Energy news covering oil, petroleum, natural gas and investment advice

Analysis of natural gas prices and also developments in the natural gas sector. Shale gas and new fracking techniques are covered in detail. | Page 1

The pricing of WTI and Brent oil futures is based on the underlying spot prices of the respective crude oils. Spot prices represent the current market value of oil for immediate delivery.

U.S. natural gas prices on Monday extended their remarkable 70% rally from last week as the big freeze pushes heating and power demand to winter records.
