In Chile, Atlas has 1.5 GW of contracted projects and currently operates three large-scale solar plants -- Javiera (Atacama), Quilapiln (Metropolitan Region), and Sol del Desierto ...

This inauguration strengthens Chile's role as a pioneer in harnessing the solar potential of its regions and the Atacama Desert to develop energy ...

The first two phases of Oasis de Atacama, the largest solar power and energy storage project in Latin America, have come on stream in Chile's ...

The project represents a total investment of US\$629 million and will add 509 MW / 2,036 MWh storage capacity to the country's largest solar plant, ...

Hybrid renewable and battery storage projects are particularly important to providing more stable and lower carbon power supply in countries ...

Solar and energy storage deployment is booming in Chile, spurred on by supportive government policy that has been markedly stable for 15 years. Indeed, the nation leads Latin ...

The project, a major part of the Oasis de Atacama platform, combines 77 MW of operational solar PV with a 430 MW/3.5 GWh battery energy storage system (BESS) in Chile's ...

Spanish renewables developer Zelestra has signed a long-term power purchase agreement (PPA) with gas provider Abastible for a solar-plus ...

Solar power combined with battery energy storage is at the forefront of Chile's recent generation growth.

This installation features 180 MW of solar panels coupled with a 112 MW / 560 MWh battery storage system. By enabling the storage of solar energy for up to five hours, Andes Solar II-B provides firm ...
