High-pressure core-flooding setup for CO₂ storage : The first public research facility of its kind in Thailand, this setup enables experiments on CO₂ injection and ...

It is the first smart hybrid microgrid site of Thailand, consisting of 100 kW PV power station, 100kW*1hour Lithium Battery Energy Storage System (BESS) and 90kW small hydro generator.

The Southern Thailand Wind Power and Battery Energy Storage Project is the first private sector initiative in Thailand to integrate utility-scale wind power generation with a battery energy storage ...

The Electricity Generating Authority of Thailand (Egat) plans to convert three hydropower dams into massive energy storage systems with a 90-billion ...

"For less than the price of a Ferrari, you can build our system," proclaims Sebastian-Justus Schmidt, the mastermind ...

The objective of the project HA-G1048 is to maximize the use of the energy produced by the 8-MWp solar photovoltaic plant (SPP) to further reduce the use of thermal power, by implementing a Battery ...

Northern Thailand's energy storage project in Chiang Mai marks a turning point for renewable energy adoption across Southeast Asia. Announced last month, this initiative aims to solve the region's ...

IEEE: a group of interconnected loads and Distributed Energy Resources (DER) with clearly defined electrical boundaries that acts as a single controllable entity with respect to the grid. It can connect ...

The Electricity Generating Authority of Thailand (Egat) plans to convert three hydropower dams into massive energy storage systems with a 90-billion-baht investment.
