---

China has reportedly developed the world's first dual-tower solar thermal plant near Guazhou County in Gansu Province to enhance efficiency ...

Solar power generated 15.354 billion kWh, a 14.23% YoY increase, while hydroelectricity generated 771 million kWh, a 16.20% YoY decrease. ...

The project will generate electricity by using renewable solar photovoltaic (PV) power and deliver to the NWPG, replacing equivalent electricity generated by fossil fuel fired power plants connected to the ...

China Three Gorges has commissioned the world's largest hybrid solar plant which is a 1 GW hybrid concentrated solar power and photovoltaic complex. The plant was commissioned in ...

Three Gorges Renewables is now building three of the 30 new Chinese CSP projects underway, the editor of CSP Focus, Mr. Sun in China ...

Three Gorges Energy Wuwei Jiuduntan Solar PV Park is a ground-mounted solar project. The project is expected to generate 379,069.7MWh electricity to offset 31,200t of carbon dioxide emissions (CO2) a ...

Qinghai Golmud (Three Gorges) 1100 MW solar power plant is an operating solar photovoltaic (PV) and solar thermal farm in Wutumeiren Town, Golmud City, Haixi AP, Qinghai, China.

It has a total investment of approximately 4.93 billion yuan and will construct a 100MW solar thermal power generation + 200MW photovoltaic power generation + 400MW wind power generation facility.
