Space scientists have spotted a giant cosmic "brain." The latest images from NASA's James Webb Space Telescope have revealed new details in a mysterious, little-studied nebula ...

Combines RedEarth's manufacturing & energy expertise, Ambibox's bidirectional EV technology, and Nebula's battery solutions. Aims to create scalable, affordable microgrids ...

Nebula PMR 1 is a cloud of gas and dust that bears an uncanny resemblance to a brain in a transparent skull, inspiring its nickname, the "Exposed Cranium" nebula. Webb ...

To reduce household energy costs by up to 60%, Nebula, ambibox, and Red Earth will launch a Microgrid-in-a-Box in 2026 with ...

May 28, 2025 --China's Nebula Electronics Co., Ltd., Germany's ambibox GmbH, and Australia's Red Earth Energy Storage Ltd. today announced a global strategic partnership to jointly ...

RedEarth has partnered with China's Nebula Electronics and ambibox to develop what it claims is the world's first "Microgrid-in-a-Box" ...

Brisbane, AUSTRALIA - 2 June 2025 --China's Nebula Electronics Co., Ltd., Germany's ambibox GmbH, and Australia's Red Earth Energy Storage Ltd. today announced a global strategic ...

Nebula Electronics will take charge of integrating and mass-producing power electronics and battery systems, drawing on its strong R& D and manufacturing capabilities.

The James Webb Space Telescope's latest imagery is its most "cerebral" yet, capturing a dying star's nebula that looks uncannily like a brain inside a transparent skull.
